

RECOUP Entire Person Health Score

A Holistic Health Assessment Tool to Help You In Your Health Journey

Did you know that a comprehensive health assessment goes beyond just disease control and health risk evaluation?

With Recoup EPHS (Entire Person Health Score), you can now understand how the dynamics of life influence your overall well-being.

What is Recoup EPHS?

Recoup EPHS is a panoptic health scorecard, tailor-made for your unique well-being. It's a first line assessment designed by physicians to provide you with clarity amidst the uncertainties of the ever-changing world of health and wellness. Moreover, it's a tool that you can access anytime, anywhere!

This tool comprises 90 objective, actionable elements, each unveiling a critical facet of your health. Armed with these insights into your BioPsychoSocial well-being, you can make informed decisions for a healthier future.

How does Recoup EPHS Help You?

With Recoup EPHS, you can:

Get deeper insights into your BioPsychoSocial health

Remove uncertainties

Make informed choices

Stay on top of ever-changing health dynamics

Track your health score to see the effect of lifestyle changes and other interventions

Play an active role in your Health Journey

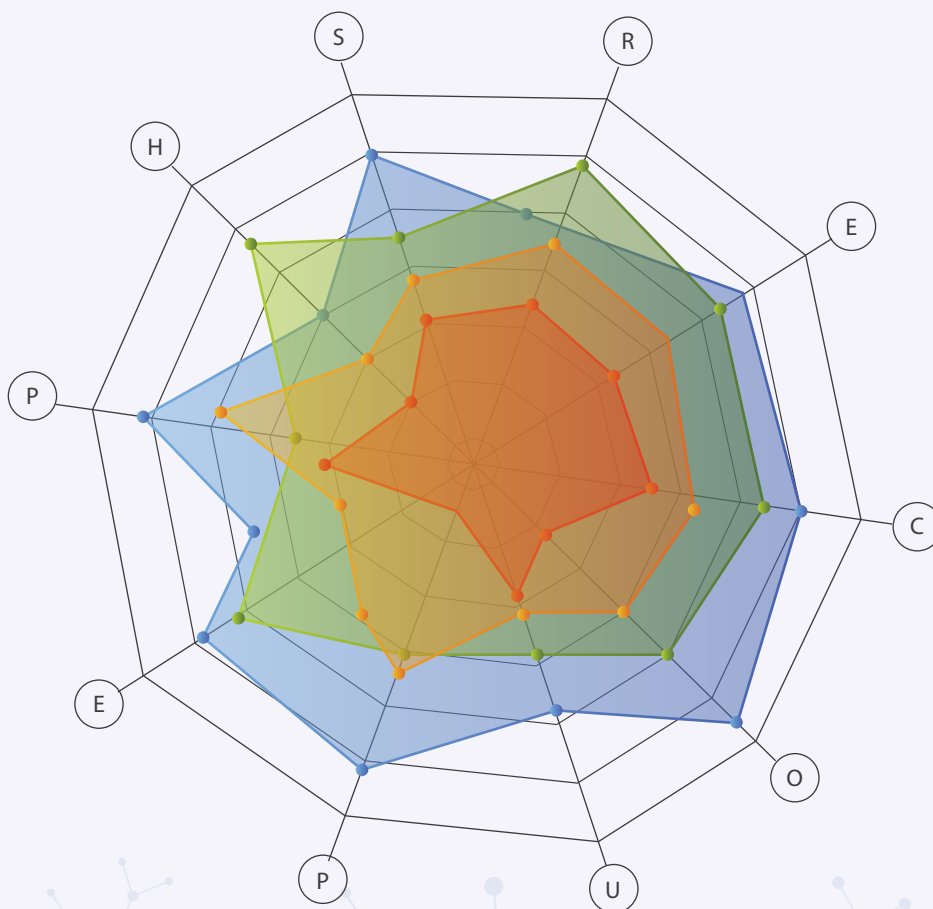

How to get started with Recoup EPHS?

You will receive a link to Recoup EPHS on your registered mobile number (WhatsApp) / email ID.

Ensure you have about 20-30 minutes to answer all the questions. Every minute you spend on the tool takes you closer to unraveling your health puzzle.

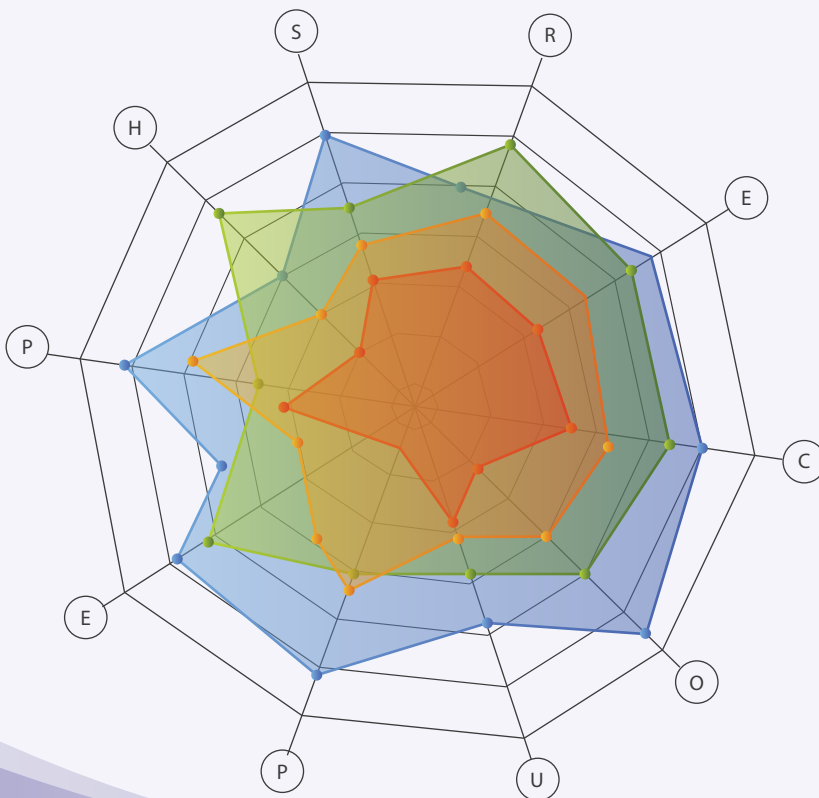

Once you answer all the questions and submit, your results will be shared with you on your email ID / WhatsApp number.

The results will be represented graphically (example shown below) and help you get a basic understanding of your current health status based on the 10 dynamics. These results will be explained by your physician during your consultation.

The 10 Dynamics of Recoup EPHS

Recoup EPHS comprises of 10 dynamics that are based on decades of findings from WHO, CDC, ILO, ICOH, UN and several health institutes of international repute.

- Resource Consumption for Health
- Emotional & Intellectual Health
- Community & Family Health
- Occupational and Financial Health
- Understanding self-care
